

## Lake Effect Snow

1. What direction would the wind need to be in order to get lake effect snow in:

|                  |       |
|------------------|-------|
| A. Chicago, IL   | _____ |
| B. Marquette, MI | _____ |
| C. Gary, IN      | _____ |
| D. Buffalo, NY   | _____ |
| E. Cleveland, OH | _____ |
| F. Flint, MI     | _____ |
  
2. The prevailing wind direction across the Great Lakes is northwest. Shade in where you would expect to find lake effect snow. (Take in to consideration how far inland lake effect snow typically falls.)
  
3. Why do you think there is rarely lake effect snow on the northern shores of the lakes?
